FOURTH PORT ARTHUR ATTACK.

BY THE ASSOCIATED PRESS—P.M.

TOKIO, March 13.—[By Asiatic Cable.] Admiral Togo's report of the fourth attack on Port Arthur by the Japanese fleet, March 10th, reached Tokio last Saturday afternoon. It is as follows:

"Our squadron, as prearranged, attacked the enemy at Port Arthur on March 10. Our two torpedo flotillas reached the mouth of the harbor at Port Arthur at 1 o'clock on the morning of the 10th. Finding no enemy and waiting until dawn, one flotilla engaged in sinking special mines in the harbor entrance. Notwithstanding the enemy's fire our flotillas succeeded in sinking the mines. The other flotilla met the enemy's torpedo flotilla, consisting of six boats, in the Tao Thie Shan channel, south of Port Arthur, at 4:30 o'clock. A hot engagement occurred at close range for thirty minutes. The enemy then took to flight.

"Our fire greatly damaged the Russian ships, one of which was badly crippled by a shot through the boilers and another was observed to be on fire. So close were the two flotillas to each other that our destroyers, the Asashio, Kasumi and the Akatsuki nearly touched the enemy's ships and our crews could even hear the cries of agony of the injured men on them. We sustained some damage and loss. The Akatsuki had a steam pipe broken and four stokers were killed thereby. Our loss was seven killed and eight wounded. Among the latter is Chief Engineer Minamisawa of the Kasumi.

"Our other flotilla, while leaving the harbor entrance, observed two Russian torpedo boats coming from seaward and immediately engaged them for the battle, lasting one hour. After causing severe damage, one effected its escape, but our destroyer, the Sazanami, captured the other boat, which proved to be the Stereguschtchi.

"Notwithstanding the land batteries pouring a heavy fire on our flotilla, the captured vessel was taken in tow. Owing to the high sea the towline soon parted, and the Sazanami found it necessary to take the crew from the Russian boat and abandoned the Stereguschtchi, which finally sank at 10:30 o'clock.

"The enemy's cruisers, the Novik and Bayan, steamed out of the entrance of the harbor toward

NEWCHWANG AN OBJECTIVE.
(BY DIRECT WIRE TO THE TIMES.)
TIEN-TSIN, March 14.—[Exclusive Dispatch.] Newchwang has become the point toward which the chief interest in the conflict between the Russians and the Japanese tends. The Japanese are about to strike there. They already have landed, and are in force at Feng Huan, seventy miles southwest of Newchwang. It is expected that a portion of the Japanese fleet will appear before Newchwang within the next twenty-four hours.

The Russians are preparing to evacuate Newchwang. They will retire on Mukden, which they have strongly fortified. A collision between the Russians and Japanese at or near Newchwang is momentarily expected.

BRITISH MARCH IN.

(BY DIRECT WIRE TO THE TIMES.)
TIEN-TSIN, March 14.—[Exclusive Dispatch.] The British troops are under orders to march on to Newchwang whenever it is evacuated by the Russians. This movement is in the interest of the protection of the property of Europeans. The Chinese army on the northern frontier is eager to engage the Russians, and the most severe measures are necessary to prevent an outbreak of the patriotic agitators.

SNARLING GARRISONS.

(BY DIRECT WIRE TO THE TIMES.)
TIEN-TSIN, March 14.—[Exclusive Dispatch.] There is a new menace in the situation in China. The French and English garrisons at Shan Hui Kuan are snarling at each other menacingly and threatening to embroil the two great nations. The soldiers of the two nations stationed in that fortified city are constantly on the verge of serious conflict. Insults continually are bandied between the men, and personal assaults are frequent.

TOGO A HERO.

(BY THE ASSOCIATED PRESS-P.M.)
TOKIO, March 13.—The Japanese fleet which sunk the mines at the mouth of the harbor, later engaged two Russian destroyers. This fleet was commanded by Commander Tsuchi-chiya.

Admiral Togo's object in sending cruisers to Talienshan Bay was to encompass the destruction of a signal station mine depot on Samshantao. This object was accomplished, and the buildings were demolished. Rear-Admiral Dwa and Uriu participated in the operations under Admiral Togo. The details of the operations became known in Japan only today, and the news created intense enthusiasm. Admiral Togo's report came last night, but it was withheld until shown to the emperor. Admiral Togo is permanently numbered among the heroes of the empire. The latest reports place the Japanese loss at nine killed, five seriously wounded and seventeen slightly hurt. The Japanese fleet was not damaged in the fighting.

MOST INTERESTING NEWS.

(BY DIRECT WIRE TO THE TIMES.)
LONDON, March 14.—[Exclusive Dispatch.] Undoubtedly the most interesting piece of news received in London this morning is the report that Port Arthur has been practically evacuated by the Russians, who fear they may be cut off by the Japanese destroying the railway. Of the land operations, little fresh is known here, though it is stated that the Russians have quit Korea entirely, or are about to do so, but that they intend to defend Newchwang. The Daily Telegraph, in commenting on the situation this morning, says:

"Admiral Togo continues his merciless work of demoralizing Port Arthur. It is clear from several sources that the results of Thursday's bombardment were far more damaging than the Russians cared to confess, while Japanese official report of the fight between torpedo boats throws quite another light upon the incident. There is the flattest contradiction in several points between the rival accounts of the same engagements."

"But one thing at least seems established this morning almost upon a basis of moral certainty. It is that Korea is going to be the side-show of the struggle. If, indeed, any exciting events should take place in that quarter at all."

"While the first great military movements seems destined to develop within the next few weeks, either at Newchwang or in the neighborhood of Port Arthur itself, it probably will be against the former position. The key of the whole strategical situation in the first phase of the war is that Japan will strike, and quickly, and one blow. For this, Bennett Burleigh has prepared his readers from the first, and events in that quarter will not be less sensational because we have had to wait for them."

DESCENT IS IMMINENT.

(BY THE ASSOCIATED PRESS-P.M.)
LONDON, March 14.—Special dispatches from Port Arthur say there are rumors among the Chinese population that the projected Japanese descent on the Liao Ting Peninsula is imminent. The Tien-tsin correspondent of the Daily Chronicle reports that 10,000 Japanese are nearing Newchwang.

The Times publishes a dispatch from Seoul, dated March 11, in which the correspondent confirms previous reports that it is the intention of Japan to wait until the ice breaks up before making disembarkations, in order to avoid difficulties on the roads. Every effort is to be made to get the new ships away at the earliest moment."

RUSSIANS STOPPING VESSELS.

(BY THE ASSOCIATED PRESS-P.M.)
PORT SAID, March 13.—The Russian cruiser "Dimitri Donskoi" has stopped several vessels at sea, including the North German Lloyd liner Stuttgart, and demanded to know their destination. She fired across the bows of the British steamer Mortlake at a point eighteen miles north of Damietta (thirty-one miles northwest of Port Said), and sent officers on board to inspect the ship's papers.

FRANCHE NAVAL SCANDAL.

(BY THE ASSOCIATED PRESS-P.M.)
PARIS, March 13.—It is affirmed in

Paris that Prince Itchijo, naval attaché to the Japanese legation, will leave France shortly as a result of a conference between Foreign Minister Delcasse and M. Motono, Japanese Minister, on the subject of the Martin treason case. Martin is now under arrest. He was employed in the Ministry of Marine, and is said to have attempted to sell French naval secrets to the Japanese Minister. It is alleged that Martin also sold important official documents to an Italian attaché, who since has been recalled.

THE PORT ARTHUR RUMOR.

(BY DIRECT WIRE TO THE TIMES.)
LONDON, March 14.—[Exclusive Dispatch.] Many rumors come through Chefoo, Shanghai and other sources that Port Arthur has fallen, but there is no confirmation of them. There is no question that the Japanese bombardment last Thursday did great damage to Port Arthur, as well as to Dalny. The latter place is said to be practically in ruins. These stories are brought by refugees and by people who passed the places in boats.

The Japanese are reported to be at Feng Wang Chang in Manchuria, ninety-seven miles northwest of Wuju.

SHells WOULDN'T EXPLODE.

(BY DIRECT WIRE TO THE TIMES.)
ST. PETERSBURG, March 13.—[Exclusive Dispatch.] It is said that the lyddite shells used by the Japanese that were bought in England failed to explode. The enemy, during the last attack on Port Arthur, threw two hundred shells without doing much harm. This reckless burning of their powder by Japanese causes much satisfaction here, because this kind of tactic must seriously deplete the Japanese arsenals. The Russian forts did not use a tenth part of the ammunition wasted by the Japanese, the Russian gunners having very explicit orders to save all ammunition possible, and fire only when they seemed to have a good chance of striking home.

The New York Herald some time ago published from here a telegram from Admiral Alexieff, which had been suppressed here, which stated that Japanese ships suffered considerable losses during the bombardment of Port Arthur. This news is now confirmed by travelers arriving from Nagasaki and Shanghai. It is affirmed that all Japanese drydocks are occupied with warships under repair.

SMILOFF SUPPLANTS STOESSEL.

(BY DIRECT WIRE TO THE TIMES.)
WINKOW, March 13.—[Exclusive Dispatch.] The President has been ordered to the Yalu River, and will be replaced at Port Arthur by Gen. Smiroff. The garrison consists of 20,000 men.

Since the first naval fight, a naval officer has been posted at Easland fort, to direct the fire of the guns and prevent the Russians from firing on their own ships. The artillery in the garrison has been unable sometimes to distinguish their own ships from the enemy's.

It is officially admitted that fighting still continues around Port Arthur and Talienshan. It is also admitted that the new town is deserted, as it is impossible to live there.

The ladies state that feeling is bitter against Americans and British. Even Russian subjects, Jews who have been in the United States, are being ordered away. Great discontent exists among the officers, and there are serious disputes daily between the military and naval elements, the former reproaching the latter for cowardice and incompetency. Supplies both of food and coal are plentiful, the town being provisioned for six months.

Scarcity of big-gun ammunition is beginning to be felt. The state of "scare" is so acute that when a chartered Norwegian steamer was entering the harbor with coal, she was fired on by Russians, and was damaged before the mistake was discovered.

MORE BEAR GROWLS.

(BY DIRECT WIRE TO THE TIMES.)
ST. PETERSBURG, March 13.—[Exclusive Dispatch.] The return of pleasant sentiments toward the United States reported recently, has received a setback by the arrival of Admiral Pepper at the invitation of the United States Consul at Newchwang, protested against Russia's action in sinking junks to stop the entrance of Liao River.

The Novoe Vremya, whose utterances are always of a fire-brand order, takes the United States severely to task, and says: "Newchwang is ten miles from the railway line in Manchuria; that is to say, is part of the sphere of operations, and not in the neutrality zone. Every thinking man in the United States will concede that we have a right to defend the neutral of the United States in that quarter, and we are equally seeking a pretext for a quarrel with us, she will not insist upon this protest, but will recognize that the same was made at an inopportune moment."

At Cronstadt, detailed sailing orders for the warships have been received. Every effort is to be made to get the new ships away at the earliest moment.

CLEW TO A MAFIA.

Ravings of an Italian Boy Disclose Identity of Members of a Gang Charged With Thirty Murders.

(BY DIRECT WIRE TO THE TIMES.)

A LTOONA (Pa.) March 13.—[Exclusive Dispatch.] In the delirious ravings of an Italian boy who had been stabbed and left for dead, the detectives have clews to the most dangerous Italian society they have known. Thirty murders are ascribed to the members of this band, all having been committed in this and two adjoining counties. Twenty-eight Italians in the railroad camp at Lilly were cremated four months ago. The building was a flimsy one, with numerous doors and windows, but not one of the men escaped. On several of the charred bodies stiletto wounds were found. It is now believed the society executed this wholesale crime, the members driving back at the points of their knives those who sought to escape from the flames.

Recently, detectives were called to investigate the stabbing of two brothers, Italians, near this city. The older was killed, but the younger, a mere boy, is recovering. When he was first aroused from the stupor in which he was found, he whispered, "The avengers! the avengers!"

In the hospital, while in delirium, he repeatedly cried out in fear, declaring the avengers were pursuing him, but when he became rational, he absolutely refused to talk. In his ravings, the boy divulged enough to furnish the detectives clews on which to work.

They have learned that the organization has a large Sicilian membership, and that its ramifications extend all over the country.

HOPING MISSOURI WILL SHOW THEM.

(BY DIRECT WIRE TO THE TIMES.)

S T. LOUIS (Mo.) March 13.—[Exclusive Dispatch.] As a result of the Democratic primaries held in this city yesterday to vote on delegations to the State convention which will nominate a Democratic Governor for Missouri, the Republicans of St. Louis are loudly proclaiming tonight that the State will go Republican next fall. This claim is based upon the dissatisfaction of a large body of Democratic and independent voters with the method of conducting the primary at which friends of Joseph W. Folk, who is running against former Police Commissioner Hawes and Mayor James A. Reed of Kansas City for Governor, were assailed.

[Signed] "J. L. RAWLINS."

In an interview given to the Herald, St. Louis, Gen. Rawlins explained further his past connection with the Mormon church.

"It is true that I was born of Mormon parents," he said. "My father was Joseph Rawlins, and I have not been alienated from the church since I was a child. When I was 8 years of age I was baptized according to the Mormon custom, but was never active in the church work. At 18 years I went to college, attending the University of Missouri, and began to doubt seriously the doctrines. After I went there and came in contact with other thought I soon became convinced of the falsity of the doctrines, and have been ever since. At one time I was asked to speak at a Mormon church, but I refused emphatically that I was not."

SALT LAKE (Utah) March 13.—Former United States Senator Joseph L. Rawlins today sent the following dispatch to Chairman Burrows of the Smoot investigation committee relative to the testimony of Judge Ogden Hills of this city before the committee yesterday:

"Hon. J. C. Burrows, United States Senator, Washington: Judge Hills's statement that I am a member of the Mormon church is unqualifiedly false. I do not believe any of its doctrines.

THE FAR EAST.

(Continued from First Page.)

Arthur make immunity from serious loss from bombardment almost impossible. Admiral Togo's torpedo flotilla opened the action by boldly steaming in under the batteries and successfully placing a number of mechanical mines at the mouth of the harbor. Following that, there was a desperate bow-to-bow encounter between the torpedo destroyers, in which the Japanese appear to have scored a clear victory.

Then followed a long-range duel between the cruisers, ending in the retreat of the Novik and Bayan, the only Russians engaged. The closing action was the bombardment of the inner harbor by the Japanese battleships. The latter took a position southwest of Port Arthur and used only their 12-inch guns. There were twenty-four 12-inch guns in the squadron of six battleships, and each gun fired five rounds making a total of 120 huge projectiles buried at the city. The bombardment was deliberate and carefully calculated.

In order to aid in perfecting the firing, Admiral Togo stationed the cruisers in a position due east of the entrance to the harbor and at a right angle to the battleships. The cruisers observed the range and effect of the firing, and signaled the results and suggestions by wireless telegraph. These observations and reports greatly aided the gunners in their effort to make every shell count. Admiral Togo was unable to definitely learn the result of the bombardment, but later private reports indicated that much destruction was caused in the city, where a series of fires broke out. There was also serious damage to the batteries.

HEROIC CAPT. ASAI. Capt. Shojiro Asai, commanding the flotilla of torpedo-boat destroyers which engaged the Russian destroyers, is the hero of the attack. He only had three destroyers, but attacked six Russian destroyers, ordering his craft to close with the enemy. He steamed in so close to the enemy's destroyers that the vessels almost touched, and a desperate conflict ensued from which the Russians retired badly disabled. Engineer Minamisawa of the destroyer Kasuma received a mortal wound. Minamisawa participated in the first torpedo-boat attack on Port Arthur, also in the attempt to bottle the harbor.

HOLDING THE FORT. (BY DIRECT WIRE TO THE TIMES.) CHEFOO, March 12.—[Exclusive Dispatch.] Replying to the rumor current yesterday that Port Arthur would be evacuated, and that even now the town was in flames, a report received today from official Russian sources advises that all is well, and informs all interests that they need not be anxious, as Russia never will evacuate or surrender Port Arthur. It is added that the town was intact, and that only one house has been destroyed by shells.

It is stated from an authoritative source that the Japanese bombarded Port Arthur Wednesday, and not Tuesday, at midnight. It is learned from Russian sources that one Japanese destroyer was sunk by electrically-discharged mines in the engagement of Wednesday, at midnight. The Japanese fleet rescued the survivors. Many dead were washed ashore on the west beach of Port Arthur. The Russian wounded comprise three artillery officers and forty-six soldiers, with four killed.

In the bombardment of Port Arthur Thursday, the Japanese attempted to damage the Russian fleet anchored in West Bay, but in consequence of the difficulty encountered in dropping shells over the high range of hills protecting the harbor, the attempt was entirely unsuccessful. The Japanese fleet had sun and wind in its favor when it renewed the bombardment of Port Arthur for five hours Thursday morning. Only three forts replied to the enemy, and the Russians claim they damaged one Japanese cruiser.

Stray shells fell in all parts of the town, and the civilians, who were unable to find shelter, hastily beat a retreat to the racecourse behind the cover of the range of hills. Several were killed inclusive of two women, and one child was bisected. The panic was the greatest. The bombardment was of the fiercest kind. Shells struck an incoming train completely destroying the engine and killing the driver outright.

The Russian losses were four officers and twenty-one soldiers wounded.

WORSE THAN FIRST REPORTED. (BY DIRECT WIRE TO THE TIMES.) LONDON, March 12.—[Exclusive Dispatch.] The St. Petersburg correspondent of the Telegraph says that there are rumors that telegrams have been received, other than those published, which describe Thursday's engagement as being more serious and the Russian losses greater than at first believed.

A dispatch to the Telegraph from Tokio says private telegrams state that two Russian torpedo-boat destroyers were sunk in Thursday's engagement at Port Arthur and great damage was done to the docks, forts and arsenals, including the explosion of the powder magazine. It is reported that Dalmat is almost destroyed. The dispatch adds that at a late council at the military headquarters Sunday afternoon, a report was received that a number of guns were observed to be dismounted during the attack on Port Arthur.

The garrison was driven out of the works. The European quarter was set on fire. Four Russian destroyers were put out of action inside the harbor and were deserted by their crews.

The Daily Telegraph publishes a dispatch from a correspondent at Yinkow, who reports that the Russian battleship Retzian, at Port Arthur was hit five times by Japanese projectiles and that there were twenty men killed on board.

GEN. KOUROPATKIN BEGINS HIS TRAVELS.

(BY THE ASSOCIATED PRESS—P.M.)

MOSCOW, March 13.—[By Atlantic Cable.] The day Gen. Kourapatkin spent here was marked by demonstrations rivaling those of St. Petersburg. Immediately upon arriving he went to the Sergius monastery, where he attended a "Te Deum." After this service he was conducted to the Abbott's cell, where he was blessed with the ancient ikon of Sergius. The numerous bells of the monastery and the churches pealed out as he drove away.

Returning to Moscow, the general proceeded to the Governor's palace, where he spent several hours in receiving delegations of peasants, merchants and nobles, as well as the city elders, who were headed by the senior elder of all Russia.

From the palace, the general was driven to the nobles' assembly rooms, where he replied to the greeting of Prince Troubetzkoy, who expressed the universal confidence in Gen. Kourapatkin's leadership. Gen. Kourapatkin said:

"Russia has outlived trials many times heavier than those which have now fallen to her lot, and ever issued victorious. Without belittling the difficulties which confront us or the strength and worth of our foe, we can again confidently await the victorious

termination of a fight which was not begun by us." The general's host has been already assembled in the Far East by the Emperor's order, but if this does not suffice, the Emperor will send out fresh forces.

"The prayers of Moscow and the

prayers of Russia will maintain us and give us strength to stand up for Russia's interests in the Far East. We will not spare life or health in the service of the Emperor and the country.

"Representatives of Moscow, accept the most humble thanks of the Manchurian army for your greetings and prayers. The ikons are not taken away for me alone, but for the whole army, and as soon as I reach the Far East I will see Vicente Mexilek, and the troops there of the farewell rendered me. Major Mexilek, I hope especially that I shall be victorious.

"With you good health and prosperity."

Gen. Kourapatkin dined on board his private car, and left at 8 o'clock this evening for the Far East. Great numbers of clergymen with sacred banners were at the railway station to see him off.

WAR BULLETINS FROM MANY POINTS.

(BY THE ASSOCIATED PRESS—P.M.)

S PETERSBURG, March 13.—[By Atlantic Cable.] The circulation here of an untrue report to the effect that the Washington Cabinet had decided to support the protest of the United States gunboat Helena, now at Newchwang, against the action of the Russian authorities in sinking Chinese junk in the channel of the Liao River and that Washington would modify Russia that the neutrality of Newchwang must be respected has created something of a flurry.

The Prince Vremya makes this the subject of an editorial entitled, "More American Meddling," in which it is contended that as Newchwang is within Manchuria and is only six miles from the railroad to Port Arthur, Russia has a perfect right to take defensive measures there, and that unless the United States is seeking a cause for a quarrel, it would not insist upon supporting the protest of the commander. Fortunately, a denial of this story reached here tonight in time to head off what might have proved a fresh cause of irritation.

Prince Mascheky, writing in the Grammatik, a weekly paper of St. Petersburg, predicts that Gen. Bobrikoff, Governor-General of Finland, will be appointed Minister of War.

According to news from St. Petersburg dated February 13, Gen. Sakharoff had been appointed to act as Minister of War in the absence of Gen. Kourapatkin.

The late military Governor of Kirin has committed suicide, owing to his inability to relieve the people's distress or stop the Russian depredations.

TWO ARMY CORPS GOING. (BY THE ASSOCIATED PRESS—P.M.)

S T. PETERSBURG, March 13.—The Fifteenth Army Corps at Moscow and the Tenth Army Corps at Kharkoff will start for the Far East in a few days. After the war these two corps will return to their stations, but the other troops that are already in the Far East will remain permanently in the Asiatic provinces.

JAPAN BONDS IN LONDON. (BY THE ASSOCIATED PRESS—P.M.)

TOKIO, March 13.—Japanese bonds have fallen in London 7 to 8 per cent. below Tokio quotations. The wide variation is unaccounted for, but is possibly due to the difference of the holders. In London, the majority of the bonds are in the hands of bankers, who are naturally timid in time of war, while in Tokio, the bondholders are Japanese, who are exceedingly confident as to the outcome of the war.

THE JAPANESE IN SHANGHAI. GOVERNMENT IS LIBERAL. (BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, March 13.—[By Atlantic Cable.] The confidence displayed by the Russian people in the progress of the fighting in the Far East, which is one of the most notable features in Russia of the war, has thus far been largely due to an entire change of policy inaugurated by the

Emperor some time ago, with the abolition of the censorship on foreign newspaper dispatches. This abolition was followed, when the war broke out, by the Emperor's decision to keep the public as fully as possible all reports regarding the war, in the belief that the loyalty of his subjects would be only strengthened by acquainting them with the truth in victory or defeat. It was an appeal to the sentimental side of the Russian character, which has been more than justified. Hitherto, the government has considered it unsafe to give the people information freely at critical moments, and the result was that the people, being semi-literate, were often inclined to imagine things to be much worse than they really were.

The Associated Press is assured by a high authority that all official telegrams always have been given out accurately, in so far as their sense was concerned, and in most cases textually, although occasionally words have been changed where the original words were subject to misconstruction. For instance, in one case the word "the" was omitted, and "Russia" was rendered "I hope especially that I shall be victorious."

"With you good health and prosperity."

"Representatives of Moscow, accept the most humble thanks of the Manchurian army for your greetings and prayers. EXCITING POLO
ENGLISH TEAM WIN

(BY DIRECT WIRE TO THE TIMES)

SAN FRANCISCO, March 12.—(Exclusive Dispatch.) The open stake at Union Course Park today was won by W. T. Raught's Silver Heels, the favorite of most of the field. In the deciding course Silver Heels was opposed by T. Sweeney's Ruby Aurora. The former won was a 54-to-1 favorite in the betting. She won in six and a half seconds by a score of 5 to 6. Both dogs had easy coursing throughout the day. The dogs on the whole ran nearly true to form. In the first round there were eight small upsets, and in the second McVey beat Apple Blossom at 1 to 4. The biggest upset was in the third round, when Rob Article beat Lord Braxton, the 5-to-1 favorite. In the same round Black Coon, a 4-to-1 favorite, was beaten by Ruby Aurora.

Racing affairs have passed off quietly

at Ascot Park during the past week,

about the only thing in any way sensa-

tional being the ruling off of Owner

Strite and the suspension of Owners

Johnson & Dodson for the "crimes" of

dividing half of the run-up money in a

selling race. Strite has been suspected

of being in several of these little deals,

but not caught until the latter part

of the week. It is not likely that he

will be allowed to race again on the

Coast under his own name, but he can

very easily crawl out from under the

hand in a way by leasing his stable to

another owner. Johnson & Dodson,

however, are indefinitely suspended,

but may get back again into good grace

in a few months.

Favorites have not fared very well

during the week, but this may have

been due to the muddy condition of the

track for several days, not many horses

running kindly in the mud or on a

heavy track. The sports on the whole

did not do very well financially during

the week, but the majority of them

probably held their own. New horses

are constantly arriving, and few are

leaving and accordingly the final days

of the meeting will probably furnish

sport as good as at any time during the

week.

The only stake event this week is the

Santa Monica Stakes for two-year-olds,

to be run next Saturday. It has \$1000

added money and the distance is five

furlooms.

NEW YORK, March 12.—(Exclusive

Dispatch.) Now that the United States

Golf Association and the Western Golf

Association have come out again in

favor of medal play, the abandonment

of the all-match play system of

conducting their annual amateur champion-

ships, it is interesting to note the views

of the British open champion

and several of his predecessors on the

relative merits of this method and those

requiring only a qualifying round at

medal play. Harry Vardon, universally

regarded as the best living golfer, con-

siders the stroke play the best test of

the golfer's skill. The all-match play

is absolutely the most fair and calls for the greatest possible

skill. James Baird coincides and so

does Alec Herd.

TRIED TO BREAK INTO THE BANK.

SAN BERNARDINO POLICE MAKE NICK-OF-TIME ARREST.

Scott Twenty-five Thousand Dollar Damage SuitAppealed to Supreme Court—Odd Fellows Donate Skin for Benefit of a Brother Member of the Lodge.

SAN BERNARDINO, March 12.—A suspicious character who gave his name as John Monroe was taken into custody yesterday afternoon, having been detected in the act of attempting to force an entrance to the San Bernardino National Bank. An official had watched him at work for over half an hour, and satisfied that the fellow's intentions were crooked he turned in the police alarm.

CONSTABLE SUED.

Preston Fuller, a Colton liveryman, has instituted action against Constable Allen to recover \$200 damages alleged to have been sustained by the constable attaching a buggy which Fuller alleged he owned. The attachment was made to recover a \$75 due from Mrs. Rose Porter, a former friend of Fuller's for a picture hat which the woman bought, but never paid for.

SCOTT DAMAGE SUIT APPEALED.

The \$25,000 damage suit instituted some time ago by Jennie R. Scott of Redlands against the San Bernardino Traction Company for personal injuries sustained in a collision, has been appealed to the Supreme Court by the plaintiff, who is not satisfied with the judgment of \$1500 awarded her recently.

SKINNING ODD FELLOWS.

Superintendent Meyer of the County Hospital, this morning operated on a large number of Odd Fellows who visited the institution for the purpose of donating skin to William Edmonds, who is being skin-grafted on account of horrible burns on his back. He is an Odd Fellow.

MILL FOR HESPERIA.

Arrangements are made to install a forty-stamp mill at Hesperia where a number of immense gold-bearing ledges have been uncovered. It is thought that the mill will be in operation within three months. It is to be says an amount of \$4 to the ton, but there is an immense body of it, and conditions are favorable to mining at small expense.

NEWS IN BRIEF.

Informations charging Francisco Medina and Jesus Raso with highway robbery have been filed in the Superior Court, the complaining witnesses being two other Mexicans who declare the prisoners robbed them of \$124 recently.

John Tierney, an old-time desert miner, died suddenly at the County Hospital yesterday of apoplexy.

An unknown man found unconscious on the Santa Fe Railroad track this morning and taken to the County Hospital. It is believed that he fell from a train. His skull is fractured.

The Board of Trade will hold a special meeting tomorrow night for the purpose of arranging to advertise the city at the St. Louis Exposition.

John Tierney, in the County Jail, is raising a big howl on account of his alleged illegal incarceration. He was arrested by the Redlands police over a month ago charged with murderous assault upon a fellow Minot, whom he stabbed during a quarrel, and was confined in the County Jail, but has never had a preliminary hearing, and has held simply on a warrant.

THE TIMES IN SAN BERNARDINO.—A. W. Isom, author of the headquarters and news stand, N.E. corner Third and E streets. Subscriptions and advertisements. The paper is not handled in San Bernardino by W. H. McAlister, who is the storekeeper (the walking delegate) these persons refuse to keep the paper for sale; these persons are the local labor-unionists. Isom, however, stands fast, the same as before, and independent. The paper will be served by him with their favorite journal.

WHITE HORSES ON RAMPAGE.

Victim Picked up in Unconscious Condition by Councilman McAleer.

Two Other Runaways in the Business Section of the City Yesterday—Whose Whee!

Three runaways in the business section of the city caused excitement yesterday. Two persons were injured though not seriously. Many people were endangered, however.

The most recent rampage was that of a team of white stallions hitched to a heavy wagon, which occurred about 4 o'clock in the afternoon. The team belongs to F. Stringer, a horse dealer No. 547 New High street. Louis Patterson had hitched up the horses to show them to a possible purchaser and was just leaving the corral on New High street when an unknown wheelman ran into them. The horses becoming frightened, ran down Sunset boulevard, where they struck and injured the Plaza. Patterson was thrown out and badly bruised. In rounding the Plaza, August Canzonieri of No. 1402 East Twelfth street was knocked down and run over. Canzonieri was picked up in an unconscious condition by Councilman Owen McAleer, who witnessed the accident, and taken to the residence of a relative at No. 510 Gaynor street. He was severely bruised, but was not seriously injured.

Continuing a wild night, the team ran south on Los Angeles street to First, narrow, missing a cross street, Patterson, and Aliso. On East First the horses ran, dodging in and out of vehicles and trolley cars. Near Wilmington street, L. E. Sherwood of No. 2540 Folsom street, caught one of the horses and was thrown to his death against a telephone pole and was forced to relinquish life.

The frightened animals ran to the Redlands, where they were caught by Nick Corlett and White, being driven back toward the city they ran away a second time but were stopped by Corlett.

REDLANDS.

WORKING FOR COMPROMISE. REDLANDS, March 12.—The latest move in the municipal campaign is the appointment by the Citizens and Good Government parties of a joint conference committee to attempt to come to some understanding as to the liquor clause to be inserted in the proposed special charter. A compromise may be made on a referendum clause. If the Conference Committee is successful in its work the board of freeholders will be selected by the two parties to draft the charter. A municipal ticket was placed in the field this afternoon by the Socialists.

BRIEF NEWS NOTES.

A circus, firemen's carnival all the week, concert by the Congregational choir and evangelistic services at the First Methodist will keep Redlands busy this week.

At the meeting of the Board of Trade tomorrow the question of another large tourist hotel here will be taken up. Eastern parties are interested to receive hold of the proposition if sufficient local encouragement is offered.

The matter of providing entertainment for the 100,000 tourists from the Coast and this city this year will also receive consideration. Steps will also be taken to secure the annexation to the city of the thickly-populated Teresian district.

Robert Worthing, one of the city's best-known young men, and Miss May Woodruff of East Highland went quietly to the county seat yesterday and were married. They will reside here.

SANTA ANA.

TO TRY FRUIT IN HILLS.

SANTA ANA, March 13.—Preliminary arrangements had been made by James Malone, owner of the San Joaquin ranch for the diversion of a large portion of the waters of Santiago Creek to irrigate a tract of land in the Santiago watershed below the town of Santiago. The water is to be taken from the Santiago River. This water is now used for grain or pasture, will be set out, it is reported, to orchard, and a commencement made in growing fruit in the hill lands. The water will be used for irrigation by the residents of the El Modena and Villa Park districts for irrigating purposes, and if they are taken out by the Irvine Company at the point projected, above the dam, the water will be used by the ranchers who have their supply from the stream will be to the irrigation.

OPENED THE NOTES.

There was nothing unusual about the scene except the expressed fear of exposure by the medium. The programme consisted first of a lecture, some of which was read and followed the "demonstrations." Persons in the audience, scores of them, sent to the platform little slips of paper containing notes to those supposed to be in the spirit land. It was the Von Freitag woman's business to talk to the spirits and to secure from them answers to these questions.

The most striking feature of the whole thing was how the medium was able to read those questions without unfolding the paper. If she could do that, she might be able to tell other things being seen by the audience would read it. Of course as soon as she knew the contents of the notes she could answer the questions it contained, and her answers were always satisfactory.

NIGHT AND DAY SHIFTS.

Hurrying March on Desert of Salt Lake Road.

Division Engineer Comes in from the Mojave.

Denies Rumors of Control by the Espee.

A. M. Biesenfeld, division engineer of the San Pedro, Los Angeles and Salt Lake Railroad, came in yesterday from the construction camps on the desert beyond Daggett, and registered at the Van Nys. He is a man around whom the persistent rumors that the Southern Pacific is to be controlled by the Espee have clustered, as Mr. Biesenfeld was formerly connected with the Southern Pacific in the office of Chief Engineer Hood on that system, and was supposed to have been "loaned" to the Salt Lake road.

But Mr. Biesenfeld, yesterday, flatly denied that there is any truth in the rumor of absorption, and said that he has completely severed his connections with the Southern Pacific since taking up the work of the new road.

Mr. Biesenfeld is in charge of the construction of the Salt Lake road through California, and brings a favorable report of the progress over the desert.

"Work trains are now running to a point fifteen miles out of Daggett," he said. "We will soon be laying the track beyond this at the rate of a mile a day. The tunnel in the Cañon of Mojave is about 40 per cent. completed, and night shifts have been put to work on it. The trouble has been experienced with this piece of work, as temporary track has been built around this point, to make it possible for the grading camps, pushing on beyond, to be supplied with water and fodder, as they are in a wilderness, dependent on the supply trains for provisions."

"I expect that the Nevada line, which is to be crossed at a point about one-hundred and thirty-five miles from Daggett, will be reached in June. With a more rapid rate of construction, Summit to the State line will be completed, a distance of thirty-four miles. The only remaining stretch to be graded then will be some forty-eight miles from the present end of the track to the Summit."

"There are now about 500 men working on this end of the line now, and over 1000 head of stock."

Concerning rumors that labor is deserting the construction camps on account of the approach of hot weather and the accompanying indigestion of the desert, the engineer stated that no Mexican or other foreign workmen have been imported, and that there is no trouble in securing all the men needed, most of whom are shipped from the East. The men, he said, he says, will not demoralize the force, as the worst heat points have been passed, and the line is rapidly climbing toward Kessier Summit, which is at an elevation of 4200 feet above sea level.

YOUNGEST DRUMMER.

Maj. Robert H. Hendershot, the original "Young Boy of the Rapapalooza," arrived in the city yesterday and is at the Hollenbeck, accompanied by his son, also a noted fife and drum player. Maj. Hendershot was 11 years of age when he went to the front with the Ninth Michigan Infantry, October 26, 1863, and claims to have been the youngest enlisted soldier in the Union army in that year. He won special distinction in the battle of Fredericksburg, and after the war entered West Point, being the last cadet appointed to the Military Academy by President Lincoln, to whom he was recommended by Gen. Grant.
